

SUMM.AI

INVESTMENT OPPORTUNITY DOCUMENT

MARTINO BELLINCAMPI - CEO

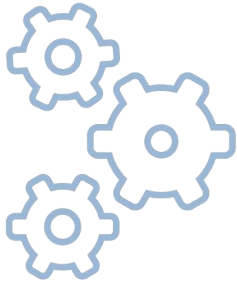

mbellincampi@gmail.com

+39 329 4326801

DESCRIPTION

Summ.AI employs artificial intelligence to acquire, select, stabilize and classify data of vertical sectors. Summ.AI provides specific data immediately exploitable and constructs an all-round knowledge body for every industry thanks to Knowledge Aware Apps and based on data coming from heterogeneous sources (from Linked Open Data to social networks, from blogs or news up to specific sources in the industry of reference).

REVENUE MODEL

A subscription fee to access the Data Bricks, bundles of data organized and analyzed according to the industry's taxonomy and ontology. Data can be merged to form custom endpoints or arranged on Tableau Viewer connected to different types of data.

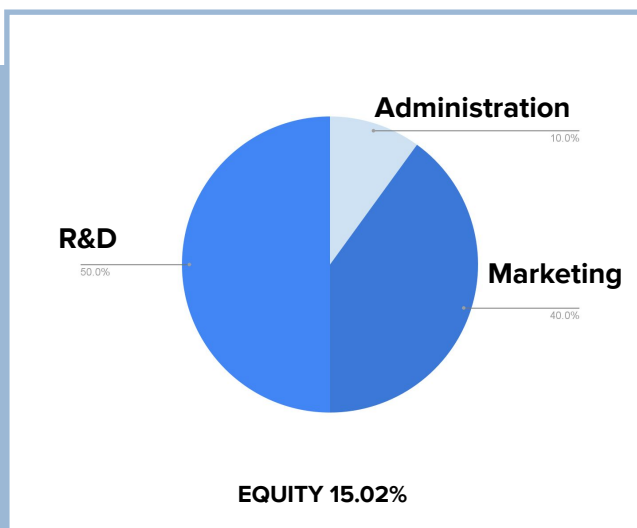

MILESTONES

5 important customers such as Mossmania, ENI, IZI Spa, Confindustria Sardegna, Innovation Engineering.

€185,000 collected

1 active pilot project with Eni Datalab

FINANCIAL NEED: € 485k
